

ENOC PROTEC 4T SCOOTER

PRODUCT DESCRIPTION

ENOC PROTEC 4T SCOOTER is a modern high technology engine oil ideal for high performance Scooter engines exceeding the latest API SL performance specification. Developed to provide maximum protection for use in Scooter engines that requires to deliver high power, high torque under stressful conditions. **Protec Scooter 4T** is suitable for all types of driving conditions (city, highway and harsh) and is available in SAE 10W- 40 viscosity grade to meet market conditions. Compatible for all Scooter engines running on lead free gasoline and catalytic converters.

APPLICATIONS

- ◆ For high performance air and water cooled four stroke Scooters engines including those models with integral gearboxes and wet clutches.
- ◆ One oil for engine, clutch and gears and its excellent performance in ECG.

PERFORMANCE STANDARDS

PROTEC 4T SCOOTER meets and exceeds the following International specifications:
Exceed the requirements of all Japanese, European, Indian and Chinese Scooter manufacturer.

API SL
JASO MB

Always follow equipment manufacturer's recommendations for required lubricant performance level and oil drain intervals.

BENEFITS

PROTEC 4T SCOOTER provides:

- ◆ Help protect and clean Scooters engines.
- ◆ Extended engine life.
- ◆ Superior resistance to oil thickening.
- ◆ Excellent protection against wear.
- ◆ Low oil consumption and engine deposits.
- ◆ Provides smoother gear changes and enhanced ride comfort.
- ◆ Reduces noise and vibration.

SAE Grade	10W- 40
Kinematic Viscosity mm ² /s @ 40 ⁰ C	92.8
Kinematic Viscosity mm ² /s @100 ⁰ C	13.73
Viscosity Index	150
Flash Point, COC, ⁰ C	236
Pour Point, ⁰ C	-33
Product code	220026

The information prepared provides the typical properties that are considered as representative. Some variation which will not affect performance is possible

HEALTH AND SAFETY, ENVIRONMENT

The information on this product is available in the ENOC Material Safety Data Sheet (MSDS) as a guide to the precautions and safe handling of this product and its disposal. For further information we recommend you review the MSDS. Handled correctly there are no special precautions suggested.
